Re: C00331769
Amended Year End Report (10/01/05 - 12/31/05)

Dear Ms. Sugarman;

In response to your inquiry of February 28, 2006, please note the following:

Due to a fault in the report preparation software, the itemized disbursement total on page 139 of the original report did not carry forward correctly to page 4, line 21. All expenses were properly included on the original report. The amendment was filed to correct this software fault and correctly carry the Other Disbursements total to line 21 of the summary page.

No additional expenses are included in the detail of the amended report, it is merely filed to correct the software problem that did not carry forward the correct total to the summary page. All activity was reported correctly on the original report.

Sincerely,
Patrick J. Kozlowski
